Intensive use of renewable resources – continuous increase of the reutilisation score

- Production under extensive use of renewable raw materials and energy using to 100% hydroelectric, solar and geothermic power
- Production widely independent of crude oil: 82% of organic carbon processed in ACTIV perfectKliks originates from renewable plant resources which enables a production that is widely independent of crude oil
- Active water stewardship maintaining an own fresh and waste water treatment

Full transparency - complete ingredient declaration

15-30% non-ionic surfactants (fatty alcohol EO adduct, sugar surfactants), soap (coconut oil), 5-15% anionic surfactants (sodium laureth sulfate, sodium alkyl sulfate), <5% phosphonates, perfumes, enzymes (amylase, cellulase, protease), optical brighteners

Specific ingredients: water, alcohol, glycerin, citrates

Traditional German quality - driving your durable business development

- More than 25 years pioneer in sustainable product development
- Smart hygiene solutions ensuring profitable growth
- Trusted brand

Professional user training and on-site support for Sustainable Hygiene Solutions

- Comprehensive knowledge transfer through qualified cleaning consultants
- Customized hygiene plans and cleaning recommendations optimizing your business and cleaning procedures
- Increased service value and strengthened company reputation

ACTIV perfectKliks

green-Effective® Ultra-concentrated liquid detergent

- Low temperature performance ■ Versatile use ■ Material friendly

Product profile

- ACTIV perfectKliks is extremely material friendly thanks to its natural soaps and enzymes and absence of bleaching agents while offering highest compatibility with all types of textiles allowing therefore a versatile use independently of water type, dirt level or water hardness.
- Thanks to its composition of natural soaps and enzymes ACTIV perfectKliks achieves an excellent washing performance even at 30°C for an outstanding economic use.
- Majorly composed of renewable resources, ACTIV perfectKliks takes on the responsibility for future generations.
- Optimized as system for energy and resource saving, it has to be used through automatic distribution. ACTIV perfectKliks can be either used alone or in combination with further Kliks products, such as SYSTEM powerKliks.
- KLIKS is a closed system with a clever packaging design providing maximum user safety and hygiene while guaranteeing the complete emptying of the product and a space saving disposal.

Application and Dosing

Closed system for maximum user safety and intuitive handling.

automatic dosing systems highly recommended.

developed for professional laundries.

open box as indicated through icons on the box and insert spout correctly in holder.

pay attention to colour coding for safe application.

recycle cardboard box with paper and plastic bag with plastic.

	5 ml	8 ml	11 ml
	8 ml	11 ml	14 ml
	11 ml	14 ml	16 ml

Area of application

- ACTIV perfectKliks is suitable for all type of textiles and all temperatures.
- Suitable for all types of professional washing machines. Only to be used with automatic dosing equipment.
- Use ACTIV perfectKliks according to the dosage instructions (depending on the water hardness and degree of soil of the laundry). Water hardness information can be provided by your local water company.

Product safety, storage and environmental instructions

Safety: For professional use only. For further information see Safety Data Sheet.

Storage: Store at room temperature in the original container.

Environmental: Only give completely emptied packaging to special waste disposal. Proper dosage saves costs and minimises environmental impacts. Wash at the lowest possible temperature. Always wash with full load. Pre-sort the laundry (e.g. by colour, degree of soil, type of fibre).
